The House bill for the repeal of the warrevenue bill and providing for the removal of the duty on tea received its first consideration at the hands of the Senate committee on finance to-day, and when the committee adjourned members expressed the opinion that the measure would be favorably reported after one or two more sittings. No opposition was expressed to the measture as a whole, but the time of the meeting was given over to a discussion of the features of the bill and the probable effect of its enactment into law upon the finances of the country. Senator Aldrich, as chairman of the committee, presented a carefully compiled statement showing the expenditures and receipts of the country for the past fifteen years. According to this statement the receipts of the fiscal year 1901 'exceeded the expenditures to the extent of \$108,000,000. The average internal revenue receipts under the war-revenue act are \$68,000,000, and those collected on the importations of tea \$9,000,000, leaving still a probable surplus of more than \$36,000,000 per year after the abolition of the pro-

The ception was marked by an unusual warmth of expression, which is in line with the extremely cordial reception accorded by the Chilean government to the personnel of the battleship Iowa when she docked in Calcuhuna recently. One expression of the minister, for instance, was: "It gave me the opportunity to anticipate with facts the intention by which I am inspired of tending to bring Chile and the United States into closer bonds of friendship within an equitable, just, brotherly American policy, but calm and reasonable, without Titopic public delusions, and bearing always in ming the inalienable requirements of the social status of our continent." The President in reply assured the minister of his intention to maintain friendly ties and increased commercial intercourse

At the Cabinet meeting to-day a number of matters of minor importance were discussed. The receipt of anarchistic documents, mostly newspapers and pamphlets, by the Treasury Department was talked of. and it was decided to bring the matter to the attention of the International Postal Union when it meets. These documents have been coming to the Treasury Department for many years, mostly to the customs division, but no attention has been paid to them until lately.

WILD OVER THE ALLIANCE of the regiment and a battery of artillery

JAPANESE ARE DELIGHTED AND PREPARING TO CELEBRATE.

ated a Furore Throughout the Little Island Empire.

TOKIO, Japan, Feb. 21, via Victoria, British Columbia, March 4.- Japan has gone wild with delight over the conclusion of the Anglo-Japanese alliance and is only considering how best to celebrate. Until the ratification everything is in embryo, but some of the communities will not be denied. There has been an elaborate torchlight procession at Tokio besides the formal interchange of congratulations at a joint meeting held by the two houses of the Diet at which Sir Claude MacDonald, the British minister, was present. At various towns in Japan special celebrations have already been held or are in contemplation. The vernacular press is brimming over with cheerful forecasts of the result of the "diplomatic union," flags are flying, and altogether young Japan is patting itself on

the back. Ex-Minister of Foreign Affairs Kato touched the keynote of popular sentiment the other day when in a speech touching on the proper methods of receiving the news of the alliance he said that Japan should accept her position with all dignity. There should be no question of using the opportunity for asking England to aid in the introduction of foreign capital into Japan. Such a course would be like a bridegroom asking his father-in-law for money on the day of the wedding. It would be fitting, said Mr. Kato, that Japan should signalize the occasion by sending over to the naval review to be held at Spithead during King Edward's coronation four representative war ships, which would be more effective than oratory or cheap champagne in a dark corner of the empire. and to-day it is reported that Premier Kat-sura has obtained the sanction of the Emperor to send a first-class battleship and

This idea of Mr. Katos has taken hold cruiser to take part in the Spithead naval demonstration. The chambers of commerce throughout the country are proposing to send two representative merchants to attend the coronation. Another feature this euvers in the same region about the same time and the coincidence has been noted. Marquis Ito, ex-premier, who has been on a triumphal tour of the world, is expected to arrive at Nagasaki, Japan, on the 26th inst. His return will be made the signal for a marked demonstration of weiome. Although Marquis Ito was not in London when the treaty was signed and it is more than rumored that he was half inclined to treat with Russia for an alhance, still popular sentiment ascribes to Marquis Ito the real credit for the con-

clusion of the convention. Advices from Yokohoma say the news of the dual alliance has already stiffened China and Korea. The Chinese plenipotentlaries have definitely rejected one of the chief mining stipulations in the new Manchurian convention with Russia and a Korean official has actually torn down a line of telegraph poles which are being run through Korean territory.

The attitude of the United States toward the new alliance is a matter of general enthusiasm The case of Mr. Gilmour, third officer of the British steamer Ajax, has become an international affair. In April last year Gilmour struck a disobedient, abusive coolie and was sentenced to fifteen days' imprisonment, according to Japanese law. The coolie also won a suit against Gilmour by default. Gilmour appealed and the case went to the British government. The first word came from England yesterday when the imperial government of Great Britain intimated that the Japanese government reconsider its decision and indemnify Mr. Gilmour for his costs. To-day a telegram Saturday last has been practically cut off from Tokio states that the Japanese authoulties see no reason why they should indemnify Mr. Gilmour for his costs. This result is considered interesting at this functure as showing the hard and fast line

> The British subjects in Japan have decided to order two silver vases in commemoration of the Anglo-Japanese alliance and to present one each to the sovereigns of the allied nations. The British consul at Yokohama, who is the chief mover in this matter, has already ordered the vases, which are about twenty-six feet in height, from the Jiyokuhodo Ikenohata, Tokio. The flags of the high contracting powers with the territories, the seas of Great Britain, Japan, China and Korea, are said to be shown in the designs for the vases. Other Japanese papers comment favorably on the treaty.

Manager Watkins was asked last night what position the Indianapolis club will take regarding the Sunday ball question. He said that baseball was in such an unsettled condition that he could not tell just what would be the outcome of the matter. and he did not care to discuss the question. The American Association has scheduled games for Sundays in Indianapolis, and if they cannot be played there is a strong probability that there will be no baseball in this city the coming season.

CHICAGO, March 4.-Delegates from eight of the leading motor vehicle organizations of the East and West continued their convention at the Collseum to-day, and completed the formation of a national body composed of clubs to be called the American Automobile Association. The question of having an individual membership also was not discussed. The government of the organization will be in charge, practically, of a board of directors, composed of the president, first vice president and treasurer, ex officio, with the seven other directors. Each club will have as many votes in the association as it has active associate and life members, and will pay \$10 initiation and \$3 annually as dues for each of its members. There will be an annual meeting of the association in the spring, alternating between the East and the West. Officers were chosen from the eight clubs sending delegates to the convention as follows, with Winthrop E. Scarritt, Automobile Club of America, as

WAGE SCALE CONFERENCE.

Shaffer's Committee Meets American Tin Plate Company Officials.

NEW YORK, March 4.-President Shaffer, of the Amalgamated Association of Iron, Steel and Tin Workers, and a delegate representing the executive committee of that organization were in conference to-day with And for That Reason Watkins Will officials of the American Tin Plate Company regarding the scale of wages for the current year. Mr. Shaffer's party includes William O'Brien and W. J. Williams, of Elwood, Ind.; John Quinn, of Granite City; J. K. Price, John Williams, Charles Typpea

and C. J. Frazee. When the conference adjourned till tomorrow the labor men were in good spirits. but declined to say what had transpired in their talk with the tin plate officials. A representative of the company said, however, that the meeting had been thoroughly harmonious throughout and that such differences as remained probably would be amicably settled at to-morrow's meeting. Asked whether the labor men had made any unusual demands the representative of the tin plate company answered in the negative. He believed, he said, that the wage scale might not be adopted in its entirety for some time, but that an understanding on this point would soon be
